

MODULE 2

PATHOPHYSIOLOGY, DIAGNOSIS, THERAPY, PROGNOSIS OF NEUROPATHIES

May 13-17, 2019

Monday 13 Metabolic and systemic disease-related neuropathies

09:00 - 11:00 Diabetes, deficiencies, infections, connective tissues diseases and vasculitis Angelo Schenone

11:30 - 13:00 Haematological and solid malignancies, paraneoplastic syndromes Chiara Briani

13:00 - 14:30 *Lunch*

14:30 - 16:00 Chemotherapy-related neuropathies | Drug toxicity and poisoning Guido Cavaletti

16:00 - 16:30 *Break*

Amyloid-related neuropathies

16:30 - 18:00 Systemic amyloidosis Giampaolo Merlini

18:00 - 19:30 Inherited amyloidosis Maria Saraiva

Tuesday 14 Immune-mediated neuropathies

09:00 - 11:00 Innate and adaptive immunity in PNS disorders Hugh Willison

11:00 - 13:00 GBS Pieter van Doorn

13:00 - 14:30 *Lunch*

14:30 - 17:00 CIDP and MMN Eduardo Nobile-Orazio

17:00 - 17:15 *Break*

17:15 - 18:15 Sensory neuropathies and neuronopathies Giuseppe Lauria

18:15 - 19:30 Clinical neurophysiology in immunomediated neuropathies facts and tricks David Cornblath

speakers dinner

Wednesday 15 Functional assesment and rehabilitation

09:00 - 11:00 Sensory and neuromotor disorders Luigi Tesio

17:00 - 17:15 *Break*

11:00 - 13:00 Modern clinimetrics: how to measure outcomes Ingemar Merkies

PM *social programme*

Thursday 16 Inherited neuropathies

09:00 - 11:00 Axonal neuropathies Mary Reilly

11:00 - 13:00 Sensory and autonomic hereditary neuropathies Matilde Laurà

13:00 - 14:30 *Lunch*

14:30 - 17:00 Demyelinating neuropathies Davide Pareyson

Friday 17 Traumatic injuries and nerve tumors / REHABILITATION

09:00 - 11:30 Clinic and diagnostics, Neurosurgery and primary nerve tumors Marco Sinisi

11:30 - 12:00 *Break*

12:00 - 14:00 Nerve and limb traumatic injuries Ernesta Magistroni
